## East Christmas Craft Ideas

So you need an idea for some christmas crafts? Well, they're really not that far away from your own imagination! But, we'll do you one better and list a bunch here for you. Always get your tools and instructions laid out first before starting your next fun christmas craft idea. I remember last christmas we're my wife and i laid everything out but assumed that each of us had some crazy glue to use. Needless to say, we ended up running over to her mother's house to get some crazy glue! Take a look at some of the ideas below for you and your family:

### Festive Ribbon Candleholderbeginner

Need to decorate your dining room table? Get some plain votive candleholders and dress them up to make your room look festive for the christmas holiday! Go one step further and exchange them as gifts with your friends. Easy enough for your kids to help make too.

### Christmas Horn Decorationbeginner

Get one of the festive christmas horn decorations (found at Hobby Lobby and The Christmas Tree Shop!) and decorate it with wreathing and ribbons to dress up your walls or mantle.

### Christmas Log Centerpiecebeginner

Don't want to use a traditional candle as a christmas centerpiece? Dress up a christmas log (unlit of course) and use various christmas flowers and ribbons to make that unlit christmas log really stand out during the holidays.

### Holiday Broom Decorationbeginner

What we like to do is get a miniature kitchen broom and dress it up with small ornaments and ribbons to hang on our mantle by the tree. Looks pretty and festive

As you can see, christmas craft ideas don't have to be very hard to think of. Just look around your house and find things you can dress up with festive ribbon and colors. You'll be on your way to enjoying some christmas crafts with your kids and family!
